ST. PAUL ACADEMY
AND SUMMIT SCHOOL

SPA

Dear Wayne,

Our SPA community would like to thank you for your endeavoring contributions to our school. The daily cleaning service you provide demonstrates people care about helping others. The personal touch has created a strong business relationship where people work with people.

Over the years SPA has experienced numerous cleaning companies enabling us as contrast; the cleaning service you provide stands well above your competition. The difference; business longevity, consistency, personnel stability and the promise of a clean school every morning, these are the attributes that set you apart.

Business success over the years has never really changed; it's all about market share. Today however, SPA realizes capturing that same share requires a new set of expectations, one of them; "First Impressions are everything". As Director of Operations having BRC on the front lines gives me the piece of mind our goal will be met. BRC has improved facility life for SPA and ultimately helping us better serve our customers. Parents of SPA students continually comment how nice and clean the school looks and Admissions refers to the cleanliness when selling our school as well.

We have done our homework and research and within the industry, BRC rates best within the Twin Cities Metropolitan Area, and SPA looks forward to continuing our vested business relationship well into the future.

Scott Selden

Director of Operations
St. Paul Academy and Summit School
